Gary Ritacco, President & CEO of eComm, Speaks at Technology Assurance Group's Regional Meeting

The East Coasts' Elite Business Communications Providers Discuss Issues Impacting Their Industry

LANCASTER, PA — June 28, 2007— eComm, the region's leader in business communications, announced today that the company's President & CEO, Gary Ritacco, spoke at Technology Assurance Group's Eastern Regional Meeting recently held in Newark. Technology Assurance Group (TAG) is an organization of independently owned business communications companies representing over \$385 million in products and services in both the United States and Canada. Mr. Ritacco shared his expertise and valuable insight on a number of issues impacting the East Coasts' elite providers and their customers.

Mr. Ritacco discussed such topics as the impact of the latest technology like VoIP, how to enhance network infrastructure, how to exceed customer expectations by increasing their profitability and giving them a competitive advantage, and utilizing marketing to effectively communicate to the target audience. Mr. Ritacco is an expert in each one of these subject areas and was able to share specific examples from his own business experiences.

"Mr. Ritacco was a natural fit to participate in this valuable meeting. His reputation far exceeds those of his competitors and this is directly attributable to the better business practices he has implemented over the years," commented Dale Johnson, CEO of TAG. "Gary is dedicated to exceeding customer expectations and

has built a team of knowledgeable professionals committed to this philosophy."

"It was a privilege to share our experiences and offer advice to our colleagues," stated Mr. Ritacco. "We are proud at what we've accomplished over the years serving the area's businesses and speaking engagements like this is one way we can help others learn from the manner in which we conduct business."

ABOUT ECOMM

eComm is a single point of contact, full-service provider of converged voice and data business communications systems for business and critical care communications for hospitals and nursing care facilities; related networking applications; presence management, collaboration and messaging applications.
